

Accessing Lexia Core 5 at home

There have been some recent updates to the Lexia on line reading program.

You do not need to download the program anymore on your computer but can use the link below.

(Just keep it in your favourites tool bar) This is for desktop PC's, Windows and Mac laptops

<https://www.lexiacore5.com/?SiteID=8838-3471-4343-3239>

This is the best way as you will always be using the most recent updated version

You should use Google Chrome, Safari, Firefox or Microsoft Edge

If you do download just go to <https://www.lexialearning.com/core5-downloads> this is an older version of Lexia Core5 though. Once on the page scroll down to the bottom and download the UK, AU and NZ version, if you do not do this it will not work.

If you are using an iPad then you need to remove any old version of Lexia and download the latest version and register the device using email address lady@victories.com.au

You can download the app from here:

<https://itunes.apple.com/us/app/lexia-core5-uk/id829281050?mt=8>

If you have any difficulties, please contact me at school on a Tuesday or Friday.

I have just printed the **100th** certificate for the year so...well done everyone!!

Mrs McCallum
